ECO CHURCH THE CLIMATE BOOK - created by Greta Thunberg - "Every school, library, home even the garden shed should have a copy of this book. Next to the Bible I strongly believe this is the most important story ever told. Read it, understand it and act on it- the lives of our children and their children may depend on it." (**Waterstone's review**)

EPIPHANY

8 JANUARY 2023

In Matthew's Gospel it is often outsiders who show the greatest insight into who Jesus is. Here, wise men from a distant country somehow know that this newborn child will be found worthy of their time, their journey, their costly gifts and their worship – and they are not disappointed. Herod, when he receives the same news, hears not a promise, but a threat, and is overwhelmed not with joy but with fear. Jesus' kingship may feel like bad news for those who are wise.
